# How to Create a Faculty Account

Almost everything you need to teach your course is found on a single personalized website requiring just one login, password, and web address. You can easily access both instructor and student resources across Cengage Learning.
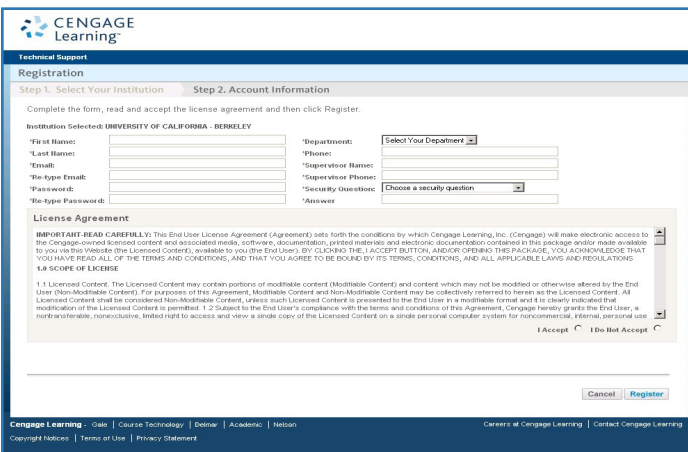

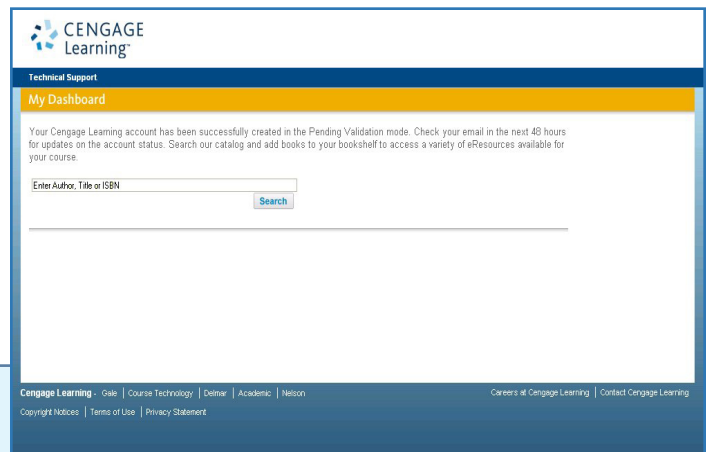

academic.cengage.com/login

▶ Go to **academic.cengage.com/login** and click "Create My Account." On the next screen, select "Instructor."

▶ Select an institution type and click "Search." On the next screen, select your institution and click "Continue."

▶ Enter your account information and click "Continue." Next, agree to the license agreement, and click "Register."

▶ Your Cengage Learning faculty account has been successfully created and is pending validation. You will receive an email notification within 48 hours as soon as your account is active. You can add any title to your bookshelf, and it will be available upon validation of your account.

Once your faculty account is active, you can add any title and most accompanying textbook eResources. A "Quick Tour" link is provided to walk you through how to load titles and access the eResources. If you experience technical issues, please contact technical support at **academic.cengage.com/support.**
